The History of Writing - Fun Science Gallery 9 Dec 2013. Writing- the symbolic representation of spoken language- and its development represents a major turning point in the intellectual evolution of human thought. The origins of writing as a problem of historical epistemology have been pursued in the last decades at the Origins of Writing Workshop at the British Museum. How did Homo sapiens become Homo scriptores? Was writing originally an attempt to represent speech? Did it evolve from prehistoric art?

Writing is the physical manifestation of a spoken language. Written language, however, does not emerge until its invention in Sumer, southern Mesopotamia, c. 3500–3000 BCE. This early writing was called cuneiform and consisted of making specific marks in wet clay with a reed implement. The Origins of Writing has 4 ratings and 0 reviews. Stemming from the Sign, Symbol, Script exhibit sponsored by the National Endowment for the Humanities, the workshop features slide shows and presentations by experts in ancient and modern writing systems. The evolution of writing in the Near East, China, and Mesoamerica was key to the development of our modern writing systems.
